COMBINATION Sets of DIES and FILES

No. 177 \$9.95

The most popular No. 1 Nu-Thred File for repairing 11, 12, 13, 14, 16, 18, 20 or 24 threads per inch on any diameter bolt, axle or stud. Plus 7 NF-SAE and 7 NC-USS rethreading dies from 1/4" thru 5/8"; all in one sturdy wood cabinet. Every mechanic needs a set of his own.

No. 1278 \$14.50

This is THE set for every master mechanic. Contains 16 hex rethreader dies plus a No. 1 and No. 2 Nu-Thred File. The nut-size dies cover all on-the-job repairs from 1/4" thru 3/4" in National Fine and National Coarse threads. The thread files have 16 precision milled sides with the following T.P.I. 9, 10, 11, 12, 12, 13, 14, 16, 16, 18, 20, 20, 24, 27, 28, and 32. Complete in polished wood cabinet.

No. 2288 \$18.95

No other Rethreader Set matches this. It's a must for every shop. Contains 2 thread files and 28 rethreader dies. This set has 7 NF-SAE and 7 NC-USS Left-Hand Dies from 1/4" thru 5/8", plus the same sizes in Right Hand Dies. A real super set in a deluxe polished hard-wood cabinet.

"JAW" BRAKE TOOLS

No. 13 HAND-BRAKE WRENCH

Positive engagement wrench for adjusting hand brakes on all Chrysler Products from 1950 thru 1959. Works at an angle and either direction in limited space. Hardened, plated tool for long life.

\$1.10

No. 14 Brake Spring Compressor

Remove and install brake-shoe hold-downs safely. It's quick and easy. Tapered serrated face fits all buttons. Large window opening for full view of arrowhead pin. One quarter turn releases button - it works every time.

\$1.25

No. 88 BRAKE SPRING TOOL

For Bendix and other brakes using a spring that hooks over a post. Socket end is slipped over post and turned to receive spring into eccentric grooved lip. Spring then lifted off with tool. Easily replaced over post with other end of tool.

\$1.75

No. 89 "DOUBLE-LIFE" TOOL

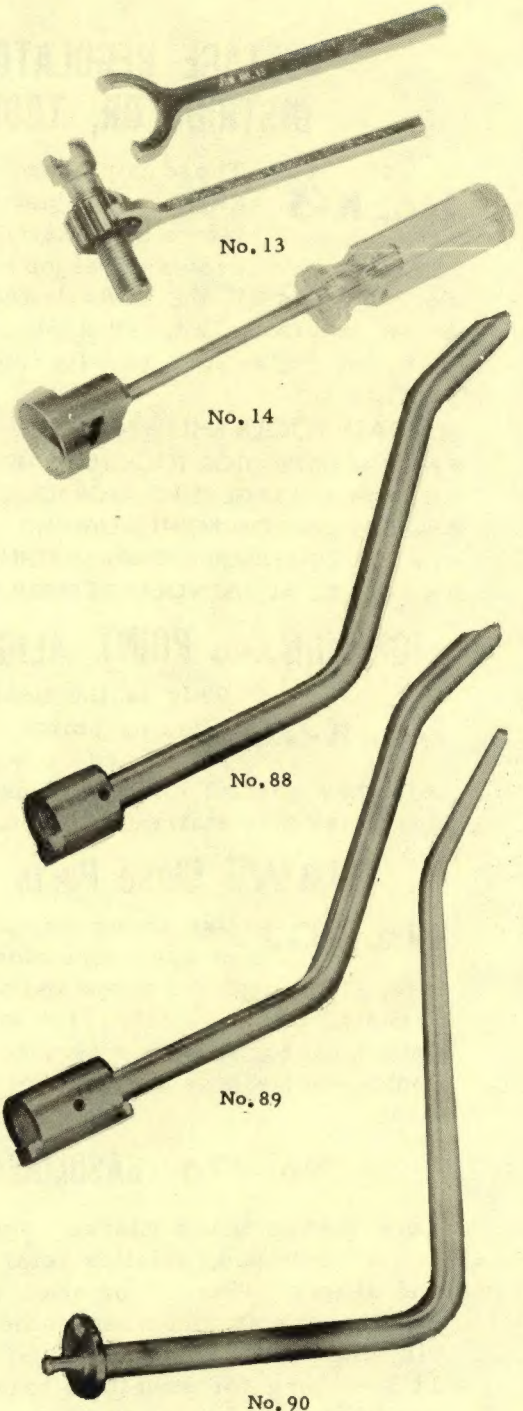

It is obvious that the grooved lip is the part that wears out first. If this happens with the "double-life" No. 89 you merely remove the groove-pin and turn the head around for a new tool. Costs a little more -- worth a lot more.

\$1.95

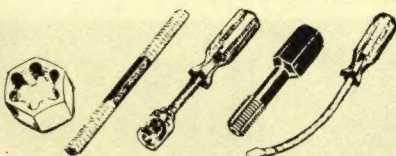

No. 90 BRAKE SPRING TOOL

This handy tool is made for cars with brake springs that hook into a hole in brake shoe. Knob end is made of alloy steel for extra long life and is used to remove brake spring easily. Other end which is tapered and correctly curved makes an easy job of inserting spring. Tool does not touch the brake lining.

\$1.80

HEX-HEAD Re-Threader TAPS and Sets

Any tap or die not specifically designed for re-threading will undercut and leave a sloppy fit. Jaw designed Rethreaders can be driven with any wrench in the most confined quarters. And they do not undercut.

No. 33 Tube Fitting Set \$300

Kit consists of 3 Chaser Taps and 3 Chaser Dies: 1/2 x 20, 7/16 x 24, and 3/8 x 24. Works on Fuel, Hydraulic and Oil Fittings for 5/16", 1/4" and 3/16" tube size. Can be used by hand, wrench or socket.

No. T6F Rethreader Taps \$325

Here is the companion set to the famous Jaw Rethreader Dies. This inexpensive set restores threads in NF-SAE tapped holes. 6 Taps for 1/4" thru 9/16". Hex head for easy driving -- Pilot for easy starting.

No. T6C Rethreader Taps \$325

No costly tear downs with Jaw Rethreader Taps. Needed every day to renew damaged, corroded and rusted threads. This long lasting NC-USS set will pay for itself on just a few jobs. Can't undercut -- Threads are like new!
